SUMMARY

Entry-level Software Developer skilled in MERN stack, front-end design, and backend development. Eager to contribute to innovative projects while continuing to enhance technical expertise. Proficient in building responsive web applications, integrating APIs, and following clean architecture principles

TECHNICAL SKILL

Programming Languages: HTML, CSS, JavaScript, Python, C++

Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS

Tools & Platforms: Git, GitHub, VS Code, Netlify, AWS, Firebase

Database Management: MySQL, MongoDB

Design & UI Tools: Adobe Photoshop, Figma, Responsive Web Design, canva

Core Concepts: Object-Oriented Programming (OOP), Clean Architecture, RESTful APIs, Debugging

WORK EXPERIENCE

- Built and deployed responsive web applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js), focusing on user experience and performance optimization. Developed reusable UI components using React, integrated RESTful APIs, and implemented state management for scalable frontend applications. Designed and maintained backend services using Node.js and Express, managing user authentication, routing, and database operations with MongoDB. Collaborated in an Agile team environment using Git and GitHub for version control. Worked with Firebase, Netlify, and GitHub for deployment and version control. Participated in team projects like Amazon and Zomato clones to practice real-world coding.
 - Practiced clean architecture principles and followed coding standards to ensure scalable and maintainable codebases.
-

PROJECTS

Amazon clone Built using HTML & CSS with a responsive e-commerce layout showcasing product catalog and navigation. Hosted on GitHub Pages. [GitHub Link: [Live project](#)]

Zomato Clone Developed using HTML & CSS with a clean, responsive UI for restaurant listings. Hosted on GitHub Pages. [GitHub Link: [Live Project](#)]

Personal Portfolio Created using HTML & CSS to showcase beginner-level projects. Responsive sections for project listings. Hosted on GitHub Pages. [GitHub Link: [Live Project](#)]

EDUCATION

Higher Secondary (Computer Science)

Diploma in Computer Application

BSC computer science - 2 arrears

MERN Stack Development Prototype

MAY 2017

JULY 2016 - MAR 2019

NOV 2024 - AT PRESENT
